KRZYSZTOF WENDE

Software Engineer & Distributed Systems Architect
wende@hey.com · +48 533-30-20-90 · Kraków, Poland
Portfolio · LinkedIn · GitHub

PROFILE

Distributed systems architect and Elixir specialist with 13 years of commercial experience. Background spanning AI agent infrastructure, real-time multimedia processing, water telemetry systems deployed across 20+ countries, telecom platforms, and open-source language design. Forbes 25 Under 25 awardee (New Technology, 2020). Founded and exited a transportation tech startup at age 19.

EXPERTISE

Core Technologies	Elixir, Erlang/OTP, TypeScript, Distributed Systems, Event Sourced Architecture
AI & Agents	Agentic Architectures, MCP Servers, A2A, LLM Integration, Local Model Deployment
Developer Tooling	Code Intelligence (AST/tree-sitter), Language Design, Editor Tooling, Data Pipelines
Frontend	React.js, Next.js, Tailwind CSS
Infrastructure	InfluxDB, TimescaleDB, PostgreSQL, VoIP/SIP/RTP

WORK HISTORY

AI Infrastructure & Elixir Developer
2025
Thenvoi · Remote
4 months

- Built core infrastructure for the Agentic Mesh platform — a secure communication layer enabling AI agents to dynamically discover, collaborate, and orchestrate tasks.
- Owned AI orchestration and inter-agent communication protocols on open standards (MCP, A2A), plus centralized agent management.
- Shipped human-agent collaboration features for shared working environments.

Elixir Developer
2024
Software Mansion · Poland (Remote)
6 months

- Built observability tooling for Membrane Framework, an open-source Elixir multimedia streaming stack supporting WebRTC, HLS, RTMP, and common codecs.
- Shipped tooling that made real-time multimedia processing pipelines inspectable end-to-end.

Elixir Developer
2021
Confly sp. z o.o. (Priv) · Poland (Remote)
2 years

- Designed and built the telecom platform for Priv — a virtual phone number app with VoIP and SMS, handling instantaneous number acquisition and Polish telecom compliance.
- Designed and developed an in-house Event Sourcing system from scratch.
- Designed and developed a custom VoIP telecommunication protocol.

Elixir Developer (Founding Team)
2016
Inflowmatix Ltd (acquired by SUEZ) · Southampton, UK (Remote)
5 years

- One of the first three developers to build the InflowNet real-time water telemetry platform, now deployed in 20+ countries.
- Designed a fully distributed Elixir architecture processing gigabytes/sec with 99.999% annual availability.
- Managed databases including InfluxDB, Mnesia, TimescaleDB, and PostgreSQL.
- Designed and operated a cluster of 20+ machines on AWS with event-sourced architecture.

CEO / Founder 2014
Neon Tree Solutions Ltd · Kraków & London 7 years
- Led a software consultancy of 3–5 engineers specializing in cutting-edge proofs of concept using Erlang, Elixir, Scala, React.js, and ReasonML.
- Chose client POCs over productizing an in-house platform — deferring a product bet bought the first Erlang Performance Lab prototype and dual Poland/UK operations.

CTO / Co-founder 2015
Man La Mode LLC · Kraków & Ann Arbor, MI 1 year
- Built the Elixir backend and oversaw React.js frontend for a luxury fashion buyers club sourcing goods directly from brands.
- Skipped a full marketplace stack to prove demand with a thin affiliate-style club before expanding; engaged investors in Ann Arbor, Michigan.

CTO / Co-founder 2013
CloudCab LLC → LightDispatch (acquired by WideTech) · New York (Remote) 2 years
- Chose white-label B2B over a consumer taxi brand — one platform serving taxi, medical, and cargo; later acquired by WideTech (18+ countries).
- Developed Android apps for customers and drivers, a Node.js backend, and a fleet dispatch admin panel; led a team of four.

SELECTED PROJECTS & ACHIEVEMENTS

Forbes 25 Under 25 **Forbes Poland & McKinsey & Company** 2020
New Technology Category.

BUZZArt / Idziemy Na Solo **Stowarzyszenie Twórców Kultury BUZZArt** 2022–2026
Founder & president of a culture-focused NGO in Gdańsk running Idziemy Na Solo — free music production program. 7 editions; 130 songs released; KPO/EU funded.

Cicada github.com/wende/cicada 2025–2026
AST-based code intelligence MCP server for AI assistants (tree-sitter/SCIP). Indexes code structure and GitHub PR history across 17+ languages. Listed in awesome-mcp-servers.

MobileClaw github.com/wende/mobileclaw 2026
Open-source mobile-first AI chat client for OpenClaw/LM Studio. Streaming, tool execution display, inline diffs, sub-agent feeds.

Elchemy github.com/wende/elchemy 2017–2019
Statically-typed language for the Erlang VM, inspired by Elm and Haskell. 1,000+ GitHub stars.

Autocomplete Elixir github.com/wende/autocomplete-elixir 2015
#1 most popular Elixir/Erlang plugin for Atom Editor. 60,000+ downloads. Semantic completion via live BEAM introspection.

EDUCATION

Jagiellonian University in Kraków — Theoretical Computer Science. Left after one semester (2013) to take the CTO role at CloudCab, New York.

OTHER

Interests: Fusion jazz, drums & percussion (17 years), recording studio owner, indie games, nutrition, psychology, coffee.
